

1st Term English Test

Part One: Reading (15 pts): Read the text, then do the following activities:

123, moss Lane East
Jefferson Street, London 14.

Thursday, October 27th, 2015.

Miss. Elizabeth Robert,
Davies Electronics company
The Ringway Manchester 21

Dear Miss. Elizabeth,

I'm writing to apply for the post of "Electronics-engineer" which was advertised in the "Western Herald Tribune" of Saturday, October 22nd. As requested, I'm including a completed job application and my diploma.

I'm 30 years old and single. I'm an Algerian doctorate student in the department of Science Technology at London University. where I have been studying for the last three years. Before that, I was a student in Physics and Electronics at Algiers University for three years where I graduated four years ago. While I was studying in Algiers, I had some necessary industrial experience every year with Algerian firms.

Before coming to London, I worked for 9 months in a Computer Institute in Algiers, where I developed my knowledge of Electronics. Last year at London I visited different Electronics companies as part of my studies.

If there are any other details which you need I shall be happy to give them.

Yours faithfully,
Farid Meziani

A. Comprehension / Exploration :

1. Choose the correct answer: The text is: 01pt:
