

Nowadays, life has changed completely, new inventions and discoveries have made life easier but more stressful at the same time. For example the internet and the cellphone that have invaded all aspects of our life; they are everywhere, at home, in the office, at school.....

Due to the internet and mobiles, communication technology is bringing people closer together. Family members are keeping in regular contact now more then ever before. And this is all done through email, chat, cellphones and SMS messaging. Years ago, it took a long time to write a letter, then find an envelope and go to the post office to buy a stamp and post it. Today, we write mails which are sent in an instant. Having free internet telephone calls also helps us to stay in touch more often and for a longer period of time
